Hello Melanie,

I have incorporated the language that we discussed last week into the Appendix A of the document you sent me. Please let me know if there is anything else you need on this.

Best,
Quinn

Subject: Seed Treatment Write-up for ESA Workplan Update

Hi Quinn,

I just sent you a link to APPENDIX A for the ESA Workplan Update (I forget if I also shared it last week).

The seed treatment language/questions needs to be as good as it's going to get in advance of additional management review today, so whenever you're ready go ahead and place what you have in the seed treatment section. I already put in the PID Template language for treated seed. There was one additional question for public comment someone on the workgroup had, so that is also in that section at present.

There will be opportunity for others to review I think through the end of the week, so even if there are reviews outstanding it should be ok.

Thanks for all your work on this! It's been a HUGE help!
